SIOUX CITY, IOWA CHURCH OPENS TO THANKFUL CONGREGATION

Sioux City, Iowa – United Church Builders (UCB) placed the finishing touches on the 48,000 square foot Cornerstone World Outreach church this month. The dedication ceremony was held with the 700 member congregation for the first service in the new facility.

UCB came to assist the church when early problems arose with the initial financing, as well as construction issues with another construction firm that overwhelmed the project. UCB took over the project in every aspect – lending financial assistance to complete the church's vision, as well as correcting construction errors and adding architectural assistance.

The final product reflects the overall dedication of UCB's team united with the initial vision of the Cornerstone World Outreach church leaders.
